JOB SEARCH, RESUME, AND INTERVIEWING WITH

aramark

STEP 1: Save the job description. Some companies close out their applications before they go through the interview process. In doing so, the descriptions typically erase in the process. you want to study the line of work you applied for in order to ace your resume and interview.

STEP 2: If you meet 75% of the qualifications of the role, we encourage you to apply for the role. When you see a role that is asking for a Bachelor's Degree/ Equivalent experience, if you don't have a degree, we are generally asking for 5-6 years of experience pertaining to the role.

STEP 3: When tailoring your resume, look at the job responsibilities and tweak your resume to it. For example, you see bullets in detail and think about how all the tasks translate to this job.
