How To Tackle Underemployment Challenges

1

Master your role.

It is encouraged to work in your role for 12-18 months to allow honing into your professional growth. In doing so, know that you will be exposed to different learning styles and will make mistakes along the way.

2

Be flexible.

The experience that you acquire in being flexible to work in different departments will help you to get where you want to be. Growth is not linear.

3

Be open to feedback.

Ask questions and encourage yourself to ask for feedback from your employer about your professional development.
